

Skills

- **Languages & Design model:** JavaScript, Python, RESTful API Design, Microservices and Event-driven architecture
- **Back-end Technologies:** Node.js, Express.js, WebSocket, Django.
- **Databases:** MongoDB, MySQL, Mongoose, Type ORM, Sequelize.
- **Tools & Platforms:** Postman, Git, Swagger, Webpack, Docker, cPanel.

Experience

Uproi Digital PVT. LTD. (Delhi) (Contract)

Sep 2025 – Present

Back-end Developer(node.js)

Vega6 webware Technology PVT. LTD.

Jun 2024 – August 2025

Node.js Developer

Compact India solution PVT. LTD. (Delhi) (Contract)

Mar 2024 – Jun 2025

Back-end Developer(node.js)

Project

Project Name: Gurukool Backend

Role and Responsibilities:

- Designed and developed the **backend architecture** for a student-teacher management system using **Node.js and Express**.
- Implemented features like **user authentication, role-based access, admin control panels, and secure data flow**.
- Built **RESTful APIs** to manage users, cases, and form submissions, with full CRUD operations.
- Used **Sequelize ORM** with **MySQL** for relational data modeling.
- Integrated **JWT-based authentication** for secure login/logout functionality.
- Collaborated with frontend developers for smooth API integration using Postman and Git.
- Built **RESTful APIs** using Node.js, Express.js, and MongoDB with Mongoose ORM.

Project Name: Viblo.ai – AI-Powered Faceless Video Platform

Role and Responsibilities:

- Contributed to development of backend services for **Viblo.ai**, a platform that enables creators to generate AI-powered faceless videos, thumbnails, ideation scripts, and auto highlights.
- Built and maintained RESTful APIs to support functions like **Ideation Generator, Thumbnail Maker, Text-to-Video, and Faceless Video creation**.
- Collaborated on AI feature integrations, enabling content generation workflows like auto-generated captions.
- Ensured backend scalability and reliability for content-heavy operations.
- Streamlined database operations with **Knex.js**, optimizing query performance and scalability.

Project Name: PASSION-INTERNATIONAL – Full-Stack Job Portal App

Role and Responsibilities:

- Developed a full-stack job portal with features like user authentication, job posting, application tracking.
- Built back-end API with custom controllers for job listings, user applications, integrating Multer for file uploads.
- **Technologies Used:** ReactJS, Express, Node.js, MongoDB, Redux, Multer, Framer Motion
- [\[Live Link\]](#), [\[GitHub Link\]](#), [\[Video Link\]](#)

Project Name: C CHAT – Real-Time Messaging App

Role and Responsibilities:

- Developed a real-time messaging application with user authentication, real-time communication, and online user status using Socket.io.
- Implemented global state management and error handling for seamless user interactions and crash prevention.
- **Technologies Used:** MERNStack, Socket.io, TailwindCSS, JWT
- [\[Live Link\]](#), [\[GitHub Link\]](#), [\[Video Link\]](#)

Education

DR. A.P.J. ABDUL KALAM TECHNICAL UNIVERSITY

August 2022 – August 2024

Master of Computer Applications (MCA)

CHAUDHARY CHARAN SINGH UNIVERSITY

August 2019 – June 2022

Bachelor of Computer Applications(BCA)
