Hiring Manager

Dear Hiring Manager,

I am writing to express my interest in the Software Development Engineer position at this company. With a Master's in Computer Application (MCA) and hands-on experience in full-stack development, I believe I am well-suited to contribute to your team.

In my current role at Compact India Solution Pvt. Ltd., I've designed responsive UIs using ReactJS, migrated legacy systems to Node.js, and developed RESTful APIs. I have also worked with state management (Redux) and optimized system performance.

Additionally, I've built several projects, including:

- **PASSION-INTERNATIONAL**: Full-stack job portal using ReactJS, Node.js, and MongoDB.
- **C CHAT**: Real-time messaging app with MERN stack and Socket.io.
- **AMAZON-CLONE**: E-commerce platform with ReactJS, Next.js, and Stripe.

I am skilled in programming languages like Python, JavaScript, and C++, and development tools such as Git and JIRA. I am confident that my skills and enthusiasm will help drive success at this company.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further.

Sincerely,
Amnesh Pal
